Requiring very few components to achieve an effective and robust installation, the fire-safe A-Rated aluminium design will be catching the eyes of architects, developers and, of course, homeowners across the country.

Glass roof systems

Purity 6

Purity 6 is our most popular system. It offers a stylish veranda solution that is glazed with 6mm toughened glass.

Highlighted by its ease of installation and versatile design, the Purity 6 veranda, featuring elegant posts and glass roofing options, is not only affordable but also offers a range of benefits.

The Sim 6 introduces a clear glass roofing option, enhancing acoustic properties to minimise raindrop noise during downpours. The self-cleaning glass option adds a sparkling finish, ensuring easy maintenance over time. This glass veranda is an ideal solution for both domestic gardens and commercial properties.

With a span of up to 3.5m glass length from the supporting wall and unlimited length possibilities, these verandas offer adaptability to suit exact needs, making them a cost-effective and reliable investment with a long-lasting appeal.

The Purity 6 comes with a full 10-year guarantee and an impressive 60-year life expectancy for the veranda frame, offering a true long term investment and reliable service for decades to come.

Notably, the Purity 6 is constructed with durable aluminium framework, ensuring longevity. The option to powder coat the structure in RAL 7016 Anthracite Grey Textured, RAL 9016 White Semi Gloss, or RAL 9005 Jet Black Textured Finish further enhances customisation.

Elevate your customers outdoor living experience with the Purity Xtra, a versatile addition to your range that caters to various needs. Ideal for creating refined spaces for entertaining, dining, or relaxation, the Purity Xtra offers a futureproof solution. Explore the adaptability and functionality of this system to meet the diverse requirements of your projects.

The Purity Xtra allows for an unparalleled outdoor living solution for areas with a 4m projection. Supporting this remarkable structure, the post dimensions of 70mm x 100mm contribute to its robust contemporary aesthetic, ensuring extensive coverage with minimal posting.

The Purity Xtra veranda system offers hassle-free installation and exceptional versatility. Its innovative design ensures a seamless installation process, saving valuable time.

The extreme versatility of the system allows for adaptability in various settings, making it an ideal choice for diverse projects.

Providing assurance of its durability, the Purity Xtra comes with a comprehensive package — a full 10-year guarantee and an exceptional 60-year life expectancy for the veranda frame.

This commitment to longevity establishes the Purity Xtra as a reliable and enduring choice, perfectly suited for those seeking top-tier outdoor solutions for their projects.

The framework is completely manufactured from aluminium and can be powder coated in a Textured RAL 7016 Anthracite Grey or RAL 9005 Jet Black finish. It also features 6mm toughened glass that is available in a range of tinted options.

Poly roof systems

Purity 16

Unbeatable structural performance system that is quick and easy to install. Ideal for cost-effective garden canopies.

It's simple, the Purity 16 has been developed with speed of installation, durability, and affordability in mind.

Due to its clever design, the Purity 16 provides a durable and attractive shade and shelter solution at our most cost-effective price. It can project up to 4 metres and has a lightweight roofing system, making it perfect for use as a canopy.

The stylish modern design gives a look that is second to none, enhancing your building's aesthetics. It also offers unbeatable structural performance, simply outperforming all other veranda and canopy systems pound for pound.

The Purity 16 comes with a full 10-year guarantee and a 60-year life expectancy, offering a futureproof investment at our most cost-effective price.

The framework is completely manufactured from aluminium and can be powder coated in RAL 7016 Anthracite Grey, RAL 9016 White or RAL 9005 Jet Black all in a Textured Finish.

The Purity 35 is durable, versatile, and benefits from unlimited length making this the ideal solution for commercial properties and those domestic homeowners looking to cover a significant space.

It is completely constructed from aluminium, giving you a structure with unbeatable durability together with a life expectancy of up to 60 years. This robust system is also supplied with a full 10 year guarantee.

The Sim 35 can be manufactured to any length to meet specific requirements and can span up to 6 metres, enabling you to cover a larger space using a minimal number of posts.

It has a modern, stylish appearance and benefits from robust integral aluminium guttering which creates an attractive finish to the structure while also ensuring a quick installation.

Furthermore, this aluminium guttering requires minimal subsequent maintenance throughout the product's lifetime.

The Purity 35 system features 35mm structured polycarbonate roof panels, which are available in clear, opal, bronze, or Heatshield Grey and offers in excess of 98% UV protection.

The Purity 35 has a variable wall pitch so you can decide on the height of the wall-plate to suit your needs. The aluminium framework is supplied in Anthracite Grey Textured (RAL 7016) and White Textured (RAL 9016) as standard.

Freestanding & big span

Purity Free

An innovative and versatile system that delivers stunning contemporary aesthetics. Ideal for use as wall-mounted or free-standing veranda or garden room.

The Purity Free system has been created with contemporary design, flawless functionality, and ease-of- installation in mind. Named for its free- standing option, the Purity Free delivers maximum versatility to homeowners.

This truly modern structure features a quick-fit, top-fix/snap-down glazing solution to speed up the installation of the 6mm toughened glass.

With a maximum projection of 4 metres and any desired length achievable, the Purity Free is perfect for any veranda patio area.

Constructed from aluminium and designed with the rigours of the UK weather in mind, the Purity Free has a sturdy 8-millimetre galvanised steel profile corner connector plate to guarantee firm installation. Engineered to last, the Sim Free has an expected lifespan of 60 years and comes with a 10-year guarantee.

The Purity Alfresco has the option to span a massive 6 metres from post to post allowing for wide and uncompromised panoramic views.

Inspired through collaboration with a renowned designer, the Alfresco Contemporary represents an innovative and value-driven system, enhancing your customers property. Tailored for businesses in search of sophisticated outdoor solutions, it establishes a robust an inviting space for commercial properties or domestic gardens all year-round.

The roof offers 8mm toughened glass allowing for panoramic view, while also underscoring the Alfresco's commitment to quality. Integrated gutters and concealed downpipes within the frame highlight the streamlined appearance, catering to the discerning aesthetics.

Crafted entirely from aluminium for enduring reliability, the Alfresco boasts easy-fix clips on profiles, concealing fixings and downpipes to achieve a refined, modern look. This design feature, in addition to enhancing visual appeal, accommodates the concealment of cables for supplementary features such as lighting, heating, or a sound system. The result is a seamless and elegant integration, eliminating the need for unsightly trailing cables.

The Alfresco is more than a product; it's a commitment to reliability and style. With a 10-year guarantee and a minimum 60-year life expectancy, it offers peace of mind with a durable and long-lasting investment. Explore optional extras to customise this outdoor solution, demonstrating adaptability to meet specific business needs. The Alfresco Contemporary emerges as the preferred choice for those seeking top-tier, bespoke outdoor solutions.

Aluminium Fencing

Purity A-Fence

The Purity A-Fence is a stylish yet highly practical approach to fencing for residential and commercial premises.

A-Fence aluminium fencing is manufactured in the UK entirely from aluminium and is set to revolutionise the fencing industry. Requiring very few components to achieve an effective and robust installation, installation is quick and easy.

Among the many benefits that A-Fence provides, foremost is the cost-effective solution for future-proofing perimeter fencing. With a lifespan expectancy of at least 60 years, the durability of this product far outweighs that of more traditional methods such as wooden fencing. Aluminium is a lightweight metal but incredibly strong, making it a tough and effective material to use for a safe and secure installation.

A-Fence achieves A2-s1, d0 fire rating, proving its non-combustibility. The shift towards using non-combustible materials in recent years across the construction industry has underlined the importance of the choices we make in regard to the materials we use to prevent any costly future remediation.
